Your solution to large format deluxe photo albums

Fastbind FotoMount F46e™ is an electric large format photo album binding machine using the pioneering Fastbind Mountinglift™ system (patents pending). The Mountinglift™ is operated with a foot pedal, leaving your hands free for positioning and making your workflow fast, efficient and comfortable. Using photographic paper, card, laminated material or any print for your pictures, you can produce any book format from 50 x 50 mm up to 457 x 457 mm (18″x 18″) and you achieve an edge-to-edge panoramic view on each page. The book cover can be either a standard cover or a digitally printed custom made cover*. In a matter of minutes you can create a beautiful, professional photobook yourself, saving time and adding more profit to your bottom line.

Fastbind FotoMount F46e is a compact, tabletop unit.

For photographic professionals and digital printers

Fastbind FotoMount F46e™ is a superior solution, designed specifically with the photographic studio, photo lab and professional photographer in mind. It also perfectly meets the needs of digital printers, copy shops and on-demand publishers who can offer premium photo albums to their customers.

Easy-to-use Fastbind supplies

The Fastbind FotoMount™ product line provides all the supplies needed to mount a photo album. With only two types of supplies you can manage all album sizes (up to 457 x 457 mm and 80 mm thick): **Fastbind FotoMount Mounting Sheets™** form the core of the book block and **Fastbind FotoMount End Sheets™** attach your book block to the cover. Your pictures and supplies are always within your reach and in perfect order in the included supply shelf.

A Cover Guide and two Cover Positioning Holders are included.

Cover Guide, Supply Shelf and two Cover Positioning Holders included.
Fastbind Mountinglift™ system: patents pending.
Product information as of February 2009 and is subject to change without notice.

The finished book opens astonishing 180 degrees.

The revolutionary Mountinglift™ system

1. After printing, crease the pictures in the center. **
2. Bind the creased pictures into a block with Fastbind mounting supplies. Secure the block through the binding process with two magnet clamps, and use the Mountinglift™ for smooth and accurate positioning. Use a cutter/guillotine to trim the block. ***
3. Place the Cover Guide on FotoMount F46e™ and use the Cover Positioning Holders to secure the cover on its place. Mount the trimmed block to the cover by removing the silicon papers from the End Sheets. Your deluxe photo album is ready!

* For top quality personalized hard covers, we recommend Fastbind Case Makers (not included)
** For optimized creasing, we recommend Fastbind Creasers (not included)
*** Guillotine not included
