

VIDEO SERIES & Bird-watching

VIDEO or MOVIE made by 4K Camcorder or D-SLR also Compact System Camera will fit with any of Velbon range.

Velbon offers unique video heads in each segment of this tripod category. Smooth panning and tilting action while stopper screws are unlocked. Once the position is fixed, just release handle and lock stoppers with a soft touch. This will be enough to stop and move for panning and tilting. Velbon's fluid heads go with traditional aluminum tripods as well as EX or Videomate series bodies, depending on purpose.

EX-447 VIDEO, 547 VIDEO N and 647 VIDEO features new concept Video heads. Light weight and smooth action with fluid effect. Stopper Knobs are on the Left side of the heads and right hand can be used only for the operating pan-tilt handle. 4-section legs make the tripod size even compact and easy for carrying.
